

TRADING GLOBALLY WITH ITG

Anticipating the Complexities of Global Trading

Investment Technology Group, Inc. is a specialized agency brokerage and technology firm that partners with clients globally to provide innovative solutions spanning the entire investment process. A pioneer in electronic trading, ITG has a unique approach that combines pre-trade analysis, order management, trade execution, and post-trade evaluation to provide clients with continuous improvements in trading and cost efficiency.

CHALLENGE In today's competitive and volatile markets, asset managers, hedge funds, and brokerage firms need robust trading capabilities to access multiple pools of liquidity and achieve timely trades at the lowest possible cost. Staffing resources and trading technology must effectively cover a wide range of time zones, currencies, trading hours, markets, and regulatory structures. Along with these trading tools and services, buy-side firms need access to data and analytics to help maximize global liquidity, determine appropriate trading commitments and timing, and ultimately boost performance.

SOLUTION ITG combines its financial markets knowledge and trading expertise to provide innovative, global offerings spanning the investment continuum. From pre-trade, to order management, trade execution, and post-trade tools, ITG offers clients advanced technologies to help navigate trading complexities and solve critical business problems. By partnering with clients and anticipating their global trading needs, we have the unique ability to bring these products and services together into comprehensive, integrated solutions that can be used across global markets.
